

FOR IMMEDIATE RELEASE

Kanfit Announces Participation at AIRTEC 2016

Migdal HaEmek, Israel (October 5, 2016) --Kanfit Ltd, a leading manufacturer of primary and detailed parts, sub-assemblies and ready to mount assemblies made from composite and metals for aerospace and medical device applications, announced today that it will be exhibiting at Airtec 2016, a world class B2B and technology event for the aerospace industry. The exhibition will take place on October 25-27 at the Munich Exhibition Center in Munich, Germany.

During the exhibition, Kanfit will showcase its products manufactured using 3D additive manufacturing and autoclave processes. In addition, the company will present a full range of aerospace grade products produced by RTM, LRI, prepregs (oven & vacuum) and wet lay up. Products to be displayed include cockpit structures, avionics and main landing gear doors, wing to belly fairings, RTM chaff and flare magazines, munition parts, airborne and space antennas, tools, jigs, fixtures, and more.

Representatives from the company's management, engineering and development teams will be available to meet with existing and potential partners and customers during the exhibition. To arrange a meeting, please email shachar@kanfit.com or visit www.kanfit.com.

Kanfit's booth will be located in Hall A1 Stand F11.
